

WHITEPAPER

Parrot is building a decentralized ecosystem on the BSC blockchain.

The project's primary goal is to create a community of like-minded individuals who are excited about the BSC network and enjoy using it in a fun and engaging way.

ROADMAP

Phase 1: Meme

Phase 2: Growth Community

Phase 3: Vibe and HODL

The Difference Between PARROT and Other some meme Projects:

A lot of meme tokens has got a team wallet, dev wallet, etc... But Parrot is %100 community token. No team wallet, no dev wallet no etc

While in many projects you need to purchase a large amount to become a whale, due to Parrot's deflationary structure, you can become a whale over time by just hodl

The projects involved in this white paper are all planned and promoted by the **PARROT** community

voluntarily, and this white paper does not constitute an offer to buy or sell cryptocurrencies.

Furthermore, this white paper does not guide the purchase, sale or holding of any cryptocurrency tokens, coins or other products.

Buying and selling cryptocurrency tokens is inherently risky, and the holder must bear the risk of loss. Neither the author of this white paper nor any participant in the PARROT project shall be liable for any losses or taxes that may be incurred by the holders, purchasers or sellers of PARROT tokens. The value of PARROT Tokens may decrease or become highly volatile.
